## APPROVES HIGH SCHOOL COURSES

Department of Education Fixes Sixteen Units as Requirement For Graduation.

Frankfort, Ky., Oct. 9.—Announcement was made by the State Department of Education that the accrediting committee of the Kentucky College Association, which met here Friday night, had approved the courses of study outlined for high school of Kentucky. The Department of Education submitted the courses to deans of the various Kentucky colleges who were present at the meeting.

The committee also announced that sixteen units hereafter will be required for graduation in any accredited high school in the state.

Sunday launched the great educational campaign to raise \$1 million dollars for Presbyterian colleges, in the local church and there was great interest manifest throughout the day.

In the afternoon the officers of the church held a meeting in which they accepted the local church's quota of sixteen thousand dollars (\$16,000).

This amount of money will be contributed by the membership of the local church through the next four years. An executive committee was chosen composed of Messrs. R. A. Cochran, chairman, J. B. Wood, Clarence Mathews and Charles F. Wright.

A complete canvass of the membership of the church will be made immediately and the accepted quota raised in as short time as possible.

## FIRST GAME IN CHAMPION SERIES RESULTS IN TIE

Darkness Stops Game Between Cynthiana and Maysville Sunday in Determining the Blue Grass League Champions.

Cynthiana, Ky., Oct. 8.—Cynthiana fought an uphill fight in the first game of the Blue Grass championship series here today and tied the score in the eighth inning, the game being called at the end of the ninth on account of darkness with the score 6 to 6.

Bosken pitched good ball for Maysville until the eighth when he weakened, and this, coupled with errors, netted Cynthiana four runs. Monholien strengthened as the game progressed but was nled in the ninth by a running catch of Linden's with three on and two out. Connelley had a hard day. Rorer ran over him in the fourth inning when he blocked the plate and Seltz spiked him in the eighth, when he slip home. They got up fighting but were separated by the umpires and players.

## SUNDAY WAS BIG DAY AT BAPTIST REVIVAL

Local Church Greatly Revived by Special Meetings—Great Sermons By Evangelist on Sunday.

Sunday was a great day at the Baptist revival with intense interest being shown in all departments of the local church. The Sunday school attendance was the largest in months and in every department of the school which has recently been graded, interest was high.

Two very large audiences heard Evangelist Vines. The evening audience taxed the large church auditorium and it became necessary to open the gallery and place chairs in the aisles. The evangelist's sermons were powerful pleas for renewed interest on the part of the church members and for non-church members to accept salvation and align themselves with some church.

Song leader Carter delighted his great audience Sunday morning with "The Prodigal Son" and Sunday evening with "The Lost Sheep." Mr. Carter greatly pleased a large audience Saturday evening with the old fashioned "Bound for the Promised Land." His delightful solos are winning for him a reputation among those who are attending the revival.

Services are continued this week at 2:30 and 7:30 o'clock and the public is invited to all services.

## KENTUCKY BANKER FOUND A SUICIDE IN SMALL LAKE

Business Pressure Thought to Have Been the Cause of the Suicide of William A. Stinnett Sunday Afternoon.

Madisonville, Ky., Oct. 9.—The body of William A. Stinnett, 50 years old, millionaire banker and lumberman of Whitesburg, was found floating on the Earlington Lake, Sunday afternoon by M. L. Locke, of Madisonville, member of a duck-hunting party.

Stinnett went to Earlington Friday morning with R. T. Davis, manager of the Madisonville branch of the Standard Oil Company. He asked the direction to the lake and left Davis. So far as is known, Davis was the last man to see him alive.

A verdict of suicide was rendered by a coroner's jury. Examination of the body showed that it had been in the water for two or three days.

Stinnett was president of the Stinnett Motor Company of Madisonville, vice president of the Bank of Whitesburg, and a large stockholder in the Mengel Box Company of Louisville. He owned 7,500 acres of timber lands in Mississippi and a \$30,000 home in Whitesburg.

Associates attributed his suicide to business worries. He had been a partner of Berry Evans in business ventures since early youth. Mr. Evans has been in poor health for the last year, and the burden of the business fell on Stinnett's shoulders.

A \$250 diamond stud, a diamond ring, and \$200 found on the body, together with lack of any signs of violence, strengthen the suicide theory, police here say.

Clyde Bell, of Owensboro, brother-in-law of Stinnett, arrived here tonight and will accompany the body to Whitesburg. Stinnett is survived by his widow and two small daughters.

## MR. ANDERSON IMPROVES.

Reports from the bedside of Mr. Langhorn Tabb Anderson, who is a patient at the Jewish Hospital, Cincinnati, are to the effect that he is now improving. This will be very good news to his many local friends who hope for his speedy and complete recovery.

CRAST TO DIE.

Mineola, N. Y., Oct. 7.—William Creasy, formerly of Ft. Thomas and Bellevue, Ky., was sentenced by Judge Smith today to die in the electric chair at Sing Sing prison during the week of November 6.

Creasy was convicted of murdering Miss Edith Lavoy, Report, N. Y., school teacher.

He said the girl committed suicide with a gun she took from his pocket. Creasy was sentenced after his attorney moved for an arrest of judgment. This was denied and the sentence was pronounced.

Attorneys served notice that they would appeal the case.

Paducah, Ky., Oct. 6.—The steamer M. T. Bryan plying between Nashville and Dover, Tenn., was destroyed by fire early this morning while anchored at Cumberland River Bridge near Edenville. Loss is estimated at \$20,000 with insurance of \$10,000. The fire is believed to have been caused by the explosion of a coal oil stove. The boat was owned by Capt. W. L. Berry of Paducah.

GEORGE REMUS DISBARRED.

Chicago, Oct. 6.—Attorney George Remus, formerly of Chicago, and now living in Cincinnati, was disbarred by the Illinois Supreme Court at Springfield today as a result of his conviction for violation of the Volstead act in Ohio. WEAK KIDNEYS MAKE WEAK BODIES

Kidney Diseases Cause Many Aches and Ills of Maysville People.

As one weak link weakens a chain, so may weak kidneys weaken the whole body and baste the final breaking-down.

Oversize, strains, colds and other causes injure the kidneys, and generally when their activity is lessened, the whole body suffers.

Aches and pains and languor and urinary ills frequently come, and there is an ever-increasing tendency towards dropsy, gravel or fatal Bright's disease. When the kidneys fail there is no real help for the sufferer except kidney help.

Doan's kidney pills act directly on the kidneys.

No need to take the statement of someone living far away as evidence.

Here is a case right in this locality.

A. Sorries, gun and locksmith, Aberdeen, Ohio, says: "My experience with Doan's Kidney Pills leads me to recommend them strongly. My kidneys acted irregularly and the secretions contained sediment. I had backaches and when I stooped it was difficult to straighten again. Cold always settled on my back and kidneys. I used Doan's Kidney Pills and they put a stop to the trouble."

OVER FOUR YEARS LATER, Mr. Sorries said: "I am the same strong believer in Doan's Kidney Pills. I have had no trouble with my kidneys since recommending Doan's."

WASHINGTON LETTER.

Washington, — "Probably no other transformation in American industry promises more for the future prosperity of the nation than the rapid drift of the Southern states from an almost purely agricultural basis to one of well-balanced agriculture and manufacturing," says the Republican Publicity Association. "It has been well said that the willingness of the South to remain a farming section was its greatest curse. Slowly but steadily the South learned of its possibilities along the line of manufacturing, and a recent year's production of manufactured goods has increased at a rapid pace."

"It is noteworthy that during consideration of the tariff bill in the recent session of Congress, numerous Southern organizations endorsed protective rates. This is a comparatively new attitude for a Southern organization to take. Nevertheless, it is apparent that Southern statesmanship has not kept step with Southern busi-

ness acumen, for Southern members of both houses of congress were almost unanimous in voting against the protective tariff bill on its final passage. Southern politicians, like many Southern journalists, stubbornly adhere to outgrown economic theories. Their eyes are upon the past rather than upon the future.

"In many respects the South is peculiarly endowed with resources which promise a marvelous development in manufacturing. The South has coal; it has almost every form of raw material; it has abundant unused water power; it has facilities for both domestic and transoceanic shipping. These, among other advantages, have resulted in a great growth of textile manufacturing until today one-half of the cotton goods manufactured in the United States are produced in the South.

"In years gone by Southerners have been content to produce a few food products and cotton which they often sold at ruinous prices, while they bought their manufactured goods from the North or from foreign countries. That policy kept the South impoverished. The want of factories limited the market for the products of the farm. With the establishment and extension of manufacturing industries and the consequent building up of a larger town population, there will be a nearer, a more constant, a more dependable and a more profitable market for the products of agriculture.

"These are facts which no thoughtful Southern business man will question. Yet his representatives in Congress oppose the protective tariff which helps to build up American manufacturers, and propose in case the Congress shall once more become Democratic, to repeal the protective

## MARRIAGE ONE LONG DEBATE.

Bill and I were having our regular Sunday morning fight the last time my Aunt Jane came over unexpectedly. The fight was beginning to wear thin in spots—that is, we were both getting bored with it but neither of us were quite willing to quit.

Instead of Aunt Jane's arrival stopping the argument, it only gave temporary impetus to our flagging energies because we both wanted Aunt Jane to hear a review of our side of the case.

Aunt Jane was more interested in Baby May, though, than she was in us,

and we soon were all playing with the baby. But before Aunt Jane went home, she said:

"Young people really ought to be advised as to what married life is. As far as I can see, all successful marriages are nothing more or less than debauch societies, and I once could realize the beforehand and choose a partner whose skill was about equal with his own—a partner who, in the heat of argument would still remember the boundaries of judgment and kindness, and against whose wits one could keep his own sword bright and gleaming—well, that would make for happier married life. Because with the

first argument, the debating society is launched and continues in existence 'until death do us part.' And a mighty good thing it is too, because nothing is quite so interesting to the human mind as an argument. I remember by Uncle Tom never got married because he said every time he visited my mother and father, one of them was taking a bath, or they were fighting. Yet, I think their marriage was unusually successful!"—Margaret W. Jackson in Farm Life.

## U. S. TO DRY THE SEA.

Washington, Oct. 7.—The United States government set out today to

make the ocean dry, so far as ships flying the American flag are concerned, and equally dry for three miles off shore for foreign ships.

While A. D. Lasker, chairman of the Shipping Board, expressed gloomy foreboding about the fate of the American merchant marine as a result of the order issued to him late

yesterday by President Harding to stop selling intoxicants aboard Shipping Board vessels, leaders in the dry movement jubilated over the ruling.

Harding's order followed approval by a council of cabinet members and the president of a ruling drawn up by Harry M. Daugherty, attorney general.
